CONTENTS

VOL. 14, NO. 1, FEBRUARY 1984

1 *P. J. Boon:* Habitat exploitation by larvae of *Amphipsyche meridiana* (Trichoptera: Hydropsychidae) in a Javanese lake outlet

13 *Joe O'Hop, J. Bruce Wallace and John D. Haefner:* Production of a stream shredder, *Peltoperla maria* (Plecoptera: Peltoperlidae) in disturbed and undisturbed hardwood catchments

23 *R. A. Jenkins, K. R. Wade and E. Pugh:* Macroinvertebrate–habitat relationships in the River Teifi catchment and the significance to conservation

43 *M. G. de L. Sturm:* On the biology of the catfish *Chrysichthys auratus* (Geoffory) in the man-made Tiga Lake in Northern Nigeria

53 *Richard B. Shepard:* The logseries distribution and Mountford's similarity index as a basis for the study of stream benthic community structure

73 *R. D. Pridmore, A. B. Cooper and J. E. Hewitt:* ATP as a biomass indicator in eight North Island lakes, New Zealand

79 *S. A. Visser:* Seasonal changes in the concentration and colour of humic substances in some aquatic environments

89 *Lynda D. Corkum:* Movements of marsh-dwelling invertebrates

95 *D. G. George and P. S. Maitland:* The fresh waters of Shetland: physical and morphometric characteristics of lochs

109 **Book Review**

VOL. 14, NO. 2, APRIL 1984

111 **Freshwater Biology Special Review**
C. S. Reynolds: Phytoplankton periodicity: the interactions of form, function and environmental variability

143 *John C. Priscu and Charles R. Goldman:* The effect of temperature on photosynthetic and respiratory electron transport system activity in the shallow and deep-living phytoplankton of a subalpine lake

157 *Susanna Björk-Ramberg:* Changes in sediment nutrient content in a subarctic lake subjected to lake fertilization

165 *I. G. Cowx, W. O. Young and J. M. Hellawell:* The influence of drought on the fish and invertebrate populations of an upland stream in Wales

179 *Robert M. Cushman:* Chironomid deformities as indicators of pollution from a synthetic, coal-derived oil

183 *L. J. Lennox:* Lough Ennell: laboratory studies on sediment phosphorus release under varying mixing, aerobic and anaerobic conditions

189 *G. Lochhead and M. A. Learner:* The cocoon and hatchling of *Nais variabilis* (Naididae: Oligochaeta)

195 *B. R. Taylor and J. C. Roff:* Use of ATP and carbon:nitrogen ratio as indicators of food quality of stream detritus

203 *Paul J. Greenwood and Jonathan Adams:* Sexual dimorphism in *Gammarus pulex*: the effect of current flow on pre-copula pair formation

211 *Andrew F. Brown and Mark Diamond:* The consumption of rainbow trout (*Salmo gairdneri* Richardson) eggs by macroinvertebrates in the field

217 **Book Reviews: Short Notice**

VOL. 14, NO. 3, JUNE 1984

221 *J. F. Wright, D. Moss, P. D. Armitage and M. T. Furse:* A preliminary classification of running-water sites in Great Britain based on macro-invertebrate species and the prediction of community type using environmental data

257 *M. T. Furse, D. Moss, J. F. Wright and P. D. Armitage:* The influence of seasonal and taxonomic factors on the ordination and classification of running-water sites in Great Britain and on the prediction of their macro-invertebrate communities

281 *Harry V. Leland and James L. Carter:* Effects of copper on species composition of periphyton in a Sierra Nevada, California, stream

297 *Alan G. Hildrew, Colin R. Townsend and Jeanette Francis:* Community structure in some southern English streams: the influence of species interactions

311 *Steven P. Canton, Leo D. Cline, Robert A. Short and James V. Ward:* The macroinvertebrates and fish of a Colorado stream during a period of fluctuating discharge

317 *C. Otto:* Adaptive head coloration in case-making caddis larvae

323 *Alan G. Hildrew, Colin R. Townsend, Jeanette Francis and Karen Finch:* Cellulolytic decomposition in streams of contrasting pH and its relationship with invertebrate community structure

329 *Stanley I. Dodson:* Ecology and behaviour of a free-swimming tube-dwelling rotifer *Cephalodella forficula*

VOL. 14, NO. 4, AUGUST 1984

335 *J. R. M. Allen and R. J. Wootton:* Temporal patterns in diet and rate of food consumption of the three-spined stickleback (*Gasterosteus aculeatus* L.) in Lyn Frongoch, an upland Welsh lake

347 *Thomas J. Fink:* Errors in instar determination of mayflies (Ephemeroptera) and stoneflies (Plecoptera) using the simple frequency, Janetschek, Cassie and Dyar's law methods

367 *Marten Scheffer, Adriaan A. Achterberg and Boudewijn Beltman:* Distribution of macro-invertebrates in a ditch in relation to the vegetation

371 *Joseph Shapiro with David I. Wright:* Lake restoration by biomanipulation: Round Lake, Minnesota, the first two years

385 *J. A. Waringer and U. H. Humpesch:* Embryonic development, larval growth and life cycle of *Coenagrion puella* (Odonata: Zygoptera) from an Austrian pond

401 *E. Frempong:* A seasonal sequence of diel distribution patterns for the planktonic dino-flagellate *Ceratium hirundinella* in a eutrophic lake

423 *A. I. Ratsep and R. E. Sjogren:* Assay for biologically available phosphorus using proteolytic *Aeromonas hydrophila*

431 *K. Salonen, R. I. Jones and L. Arvola:* Hypolimnetic phosphorus retrieval by diel vertical migrations of lake phytoplankton

439 **Book Reviews: Short Notice**

VOL. 14, NO. 5, OCTOBER 1984

443 **Freshwater Biology Special Review**

D. W. Sutcliffe: Quantitative aspects of oxygen uptake by *Gammarus* (Crustacea, Amphipoda): a critical review

491 *J. M. Elliott:* Hatching time and growth of *Nemurella pictetii* (Plecoptera: Nemouridae) in the laboratory and a Lake District stream
501 *Gary R. Carvalho:* Haemoglobin synthesis in *Daphnia magna* Straus (Crustacea: Cladocera): ecological differentiation between neighbouring populations
507 *J. Brian Rooke:* The invertebrate fauna of four macrophytes in a lotic system
515 *J. R. Howard, G. Skirrow and W. A. House:* Major ion and carbonate system chemistry of a navigable freshwater canal
533 *Ian C. Grieve:* Concentrations and annual loading of dissolved organic matter in a small moorland stream
539 *Richard W. Battarbee:* Spatial variations in the water quality of Lough Erne, Northern Ireland, on the basis of surface sediment diatom analysis
547 *R. S. Wotton:* The relationship between food particle size and larval size in *Simulium noelleri* Friederichs

VOL. 14, NO. 6, DECEMBER 1984

551 *R. B. Wood, R. M. Baxter and M. V. Prosser:* Seasonal and comparative aspects of chemical stratification in some tropical crater lakes, Ethiopia
575 *Craig E. Williamson:* Laboratory and field experiments on the feeding ecology of the cyclopoid copepod, *Mesocyclops edax*
587 *Duncan P. H. Laxen:* Cadmium in freshwaters: concentrations and chemistry
597 *Landis Hare and John C. H. Carter:* Diel and seasonal physico-chemical fluctuations in a small natural West Africa lake
611 *R. Goulder:* Downstream increase in the abundance and heterotrophic activity of suspended bacteria in an intermittent calcareous headstream
621 *Bernard W. Sweeney and Robin L. Vannote:* Influence of food quality and temperature on life history characteristics of the parthenogenetic mayfly, *Cloeon triangulifer*
631 *C. E. Gibson:* Sinking rates of planktonic diatoms in an unstratified lake: a comparison of field and laboratory observations
639 *R. S. Stemberger and J. J. Gilbert:* Spine development in the rotifer *Keratella cochlearis*: induction by cyclopoid copepods and *Asplanchna*
649 *Björn Malmqvist and Per Sjöström:* The microdistribution of some lotic insect predators in relation to their prey and to abiotic factors
657 **Book Reviews**
659 **Author Index to Volume 14**
